

# The MINE-X<sup>®</sup> Advantage for John Deere Equipment

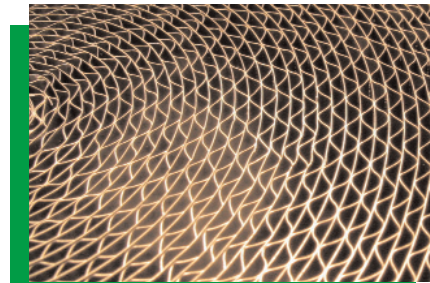

# MINE-X<sup>®</sup> Catalytic Mufflers

## Make Emission Control Easy and Profitable

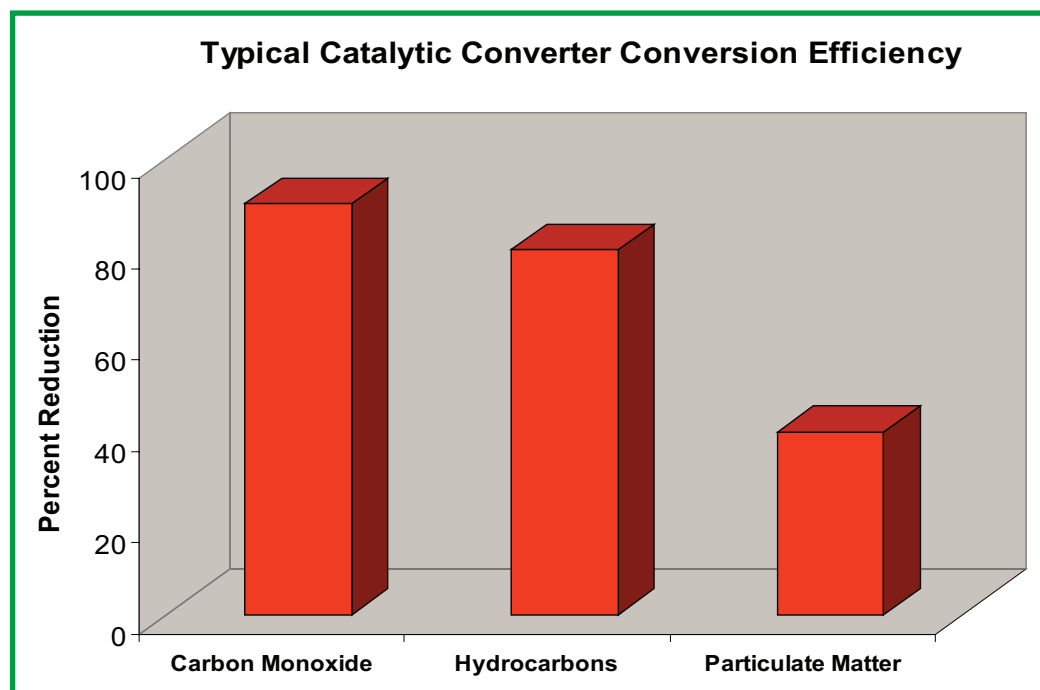

Create new sales opportunities by making your equipment more workplace and environmentally friendly. A MINE-X<sup>®</sup> catalytic muffler dramatically reduces carbon monoxide (CO), hydrocarbons (HC) and exhaust irritants. The MINE-X<sup>®</sup> catalytic muffler is easy to install since it is an exact replacement for the original muffler and it is guaranteed to fit on your machine, whatever the model, old or new.

**3767-MD for 450G Wheel Loader**

Each MINE-X<sup>®</sup> catalytic muffler contains a braided stainless steel honeycomb, which eliminates the possibility of cracking or telescoping inside the muffler.

## Direct Fit MINE-X® Catalytic Mufflers For All Types of John Deere Equipment

# Reasons to Buy MINE-X® Catalytic Mufflers

## Increased Versatility & Safety

- ✓ Equipment can operate longer indoors
- ✓ Help achieve compliance for strict emission regulations

## Quick and Easy Installation

- ✓ No exhaust system modifications needed
- ✓ Reduces costly equipment down time
- ✓ Reduces expensive installation time

## Unmatched Durability

- ✓ Heavy-duty designs and superior workmanship
- ✓ Long life and durability provides greater long-term savings

## Maintenance Free

- ✓ Maintains workplace productivity
- ✓ Maintenance and trouble free

## Lowest Back Pressure

- ✓ Lowest exhaust flow restriction of any purifier
- ✓ Lowest power loss or engine stress

## Direct Fit Designs

- ✓ Available for all models and types of equipment
- ✓ A complete range of direct fit catalytic mufflers
- ✓ Most designs ship in 3-5 days

## About DCL....

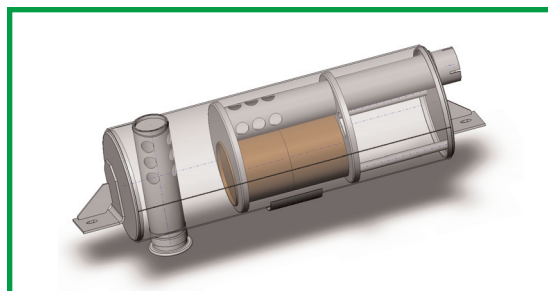

DCL International Inc. is a global leader in the engineering, manufacturing and supporting of advanced emissions control technology for stationary and mobile industrial engines.

DCL MINE-X® catalytic mufflers eliminate the dangerous emissions of carbon monoxide (CO) and hydrocarbons (HC). The reduction of the hydrocarbons in the diesel applications significantly reduces the offensive smell and irritants associated with diesel exhaust.
