Specification of Thermo Guard FR

Temperature range of felt 300 degrees F

Temperature range of foil 1200-1500 degrees F

Thickness .250 in +/- .050in

Weight 29.5oz Square yard

Weight per square foot is .34 of a pound

Thermal conductivity rating of .280 @ 75 degrees F

Thermal resistance rating R of 1.3

Noise reduction co-efficient Hz of .30

Bulk density is 2.04 pounds

Flammability MD 4.0 in/min max

CMD 4.0 in/min max

The difference between the hot and cold side should be 40-50%

Meets Motor Vehicle Safety Standard No. 302
